From policy initiatives to resilience

Economic policy

Create a **diversified** economy through **smart** investments

Prioritize technologies of the **digital** transition

Promote **entrepreneurship** and provide capital to start-ups

Connect with other **regions** to scale globally

Prepare the city for the century of **remote** working (attract talent)

Social policy

Flexible **zoning** regulations (increase housing supply)

Remove **cars** from the city and invest in public transportation

Improve access to **health** care and mental health services

Ensure access to quality of **education** in a digital world

Implement **local UBI**

Environmental policy

Prioritize technologies of the **green** transition (renewable energy)

Prioritize **investments** in areas that are most vulnerable to extreme weather events

Reduce carbon emissions & improve **air quality**

Encourage **sustainable** agriculture and farm-to-table VCs

Protect bio-diversity & reduce waste
