

Colored & Arrow Tip = observed; Grey = expected; Dotted lines = medians observed

United States (US) over-reliant
(relative to other domains) :

Figure 1 is a dot plot showing the relative over-reliance of Cambodia (KH) on various domains compared to other domains. The x-axis represents the relative over-reliance, ranging from 0 to 100. A vertical dotted line at x=0 indicates 'mutual disengagement (relative to other domains)'. A horizontal dotted line at y=0.02 indicates the 'expected median = 0.01'. Dashed lines radiate from the origin (0,0) at 10-degree intervals. Data points are colored blue for Cambodia (KH) and grey for other domains. Labels for each domain are placed near their respective points.

Domain	Relative Over-reliance (approx. x-value)	Country
Pollution Control	35	Cambodia (KH)
Green Consumer Goods	38	Cambodia (KH)
Biomaterials	45	Cambodia (KH)
Waste Management	20	Cambodia (KH)
Green Building	18	Cambodia (KH)
Recycling	25	Cambodia (KH)
Other	38	Cambodia (KH)
Carbon Capture & Storage	100	Cambodia (KH)
Internet of Things	5	Cambodia (KH)
Cloud Computing	10	Cambodia (KH)
Artificial Intelligence (AI)	15	Cambodia (KH)
Language Processing	18	Cambodia (KH)
Object Recognition	25	Cambodia (KH)
Battery	40	Cambodia (KH)
Quantum Technologies	15	Cambodia (KH)
Computational Materials	10	Other
Cloud Computing	10	Other
Artificial Intelligence (AI)	15	Other
Language Processing	18	Other
Object Recognition	25	Other
Battery	40	Other
Quantum Technologies	15	Other
Computational Materials	10	Other

Cambodia (KH) over-reliant
(relative to other domains)

Cambodia (KH)'s reliance on United States (US) as collaboration partner (%)
