

United States (US)'s reliance on South Western Scotland (UKM3) as collaboration partner

The scatter plot displays the relationship between South Western Scotland (UKM3)'s reliance on the United States (US) as a collaboration partner (%) on the x-axis and the expected median mutual entanglement (relative to other domains) on the y-axis. The x-axis ranges from 0 to 200, and the y-axis ranges from 0.00 to 0.04. A dashed line represents the expected median, and a vertical dotted line is positioned at approximately 25% reliance. Data points are labeled with domain names, and some are highlighted in blue.

Domain	South Western Scotland (UKM3)'s reliance on United States (US) as collaboration partner (%)	Expected median mutual entanglement (relative to other domains)
United States (US) over-reliant (relative to other domains)	~10	~0.039
high-reliance computing (HPC)	~50	~0.040
Cloud Computing & Edge Computing	~200	~0.030
Heat Pumps	~100	~0.030
Solar Energy	~15	~0.030
Robotics	~25	~0.030
Saline Energy	~15	~0.020
Quantum Computing	~25	~0.020
High Performance Computing	~35	~0.020
Computer Vision	~15	~0.010
Language Generation	~25	~0.010
Genetic Engineering	~35	~0.010
Artificial Intelligence	~45	~0.010
Image Recognition	~55	~0.010
Heat Pumps	~15	~0.000
Cloud Computing & Edge Computing	~35	~0.000
South Western Scotland (UKM3) over-reliant (relative to other domains)	~180	~0.000

South Western Scotland (UKM3)'s reliance on United States (US) as collaboration partner (%)
